

# Quality Policy

## BRC Global Standard for Storage and Distribution

The management of KB Packaging (UK) LLP has implemented a documented Quality System supported by a HACCP Plan as part of our ongoing commitment to the BRC Global Standard for Storage and Distribution (Issue 3).

It is the companies mission to ensure that all products stored and distributed are supported by the strictest hygiene standards and comply with all product safety, legality and quality requirements.

The Quality Management System will be used as the basis for continuous business improvement.

## ISO 9001: 2015 Quality Policy

The primary objectives of KB Packaging (UK) LLP are to provide a range of products to its customer base that is supported by the highest levels of customer service.

The Directors and Management of KB Packaging (UK) LLP support the ethos of Quality Assurance and will use the International Standard ISO 9001: 2015 as the foundation for continuous business improvement. This is also achieved by setting and reviewing the companies aims, objectives and key performance indicators.

The Directors and Management of KB Packaging (UK) LLP have communicated this Quality Policy to their staff and ensure that it is understood throughout the organisation

This Quality Policy is reviewed annually to ensure its continuing suitability and takes into account any changes in the companies operational processes.
