

SHELVING & RACKING

We understand that storage forms a vital part of your business logistics.

We use our expertise to advise customers on the most effective and efficient storage solutions for their specific requirements, ensuring your goods are stored in the best possible way.

Shelving

Easy to install, heavy duty, galvanised shelving.

Galvanised shelving has been manufactured for over 40 years and has evolved into the sought after modular shelving product it is today. Used by industry the world over, it offers an impressive number of construction alternatives, depending on products to be stored.

The shelving system comes in a massive range of heights and shelf lengths.

The most popular ones are:

Available Frame Heights:

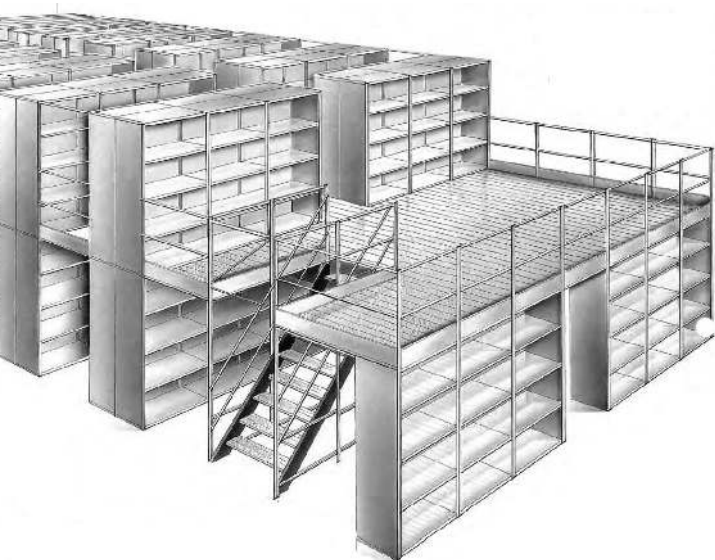

2m, 2.5m, 3m, 3.5m

Available Beam Lengths (mm):

900, 1200, 1500, 1800

Available Frame Widths (mm):

320, 400, 500, 600, 800
