

Machine Pallet Wrap

Description

Pre-stretched machine pallet wrap has been stretched before it is wound onto the core. This means the operator can apply with very little stretch and the film contracts after it has been applied to the pallet giving good pallet stability.

Stock Code	MPW4307E
Description	E-Stretch Pallet Wrap
Roll Width	450mm
Thickness	6 mu
Density	0.91gcm ³
Elongation	n/a
Pallet Qty	46 Rolls
Roll Weight	16kg
m/Roll (Aprox)	3000
Hazardous	BHT (butylated hydroxytoluene) free
Material	30% Recycled Content - Caste LDPE
Recyclable	100% Recyclable. It is the responsibility of the user to dispose of correctly.
