RIPACK[®]

Shrink Film Stability

As your trusted packaging partner, we understand that load stability is paramount for logistic and transport safety. True load stability starts by sourcing the right packaging materials, and understanding correct packaging processes and practices to achieve a safe stable result that won't compromise the safety of your product.

Understanding correct heat shrink applications can yield savings in plastic consumption and advance the load stability of your goods in transit.

Manufacturing

Solutions for heavy oversized, uneven shaped goods or delicate coated surfaces.

Timber & Brick

Heavy loads and ultimate weather protection.

Logistics & Ugly Freight

Solutions for large oversized complicated shapes and sizes.

Protection & Winterisation

Large format surface protection for buildings, boats and more...

The only approved Ripack Distributor in the UK

Derby, East Midlands

Centrally located in the heart of the East Midlands, our Ripack approved workshop is ideally located to supply and service Ripack products all over the UK.

We cover all aspects of Ripack Support including:

- Servicing and routine maintenance
- Diagnostics and repairs
- New Equipment & Accessories
- Equipment Rental

65,000 SQ FT of Warehouse Space

Same & Next Day Delivery

East Midlands Collection Point

"I have been working with KB packaging for 3 years now. Finding a packaging supplier and partner who understands and meets our time sensitive requirements was crucial for our dispatch efficiency."

Logistics Manager

Our partnership with RIPACK®

Sefmat Groupe are world leaders in shrink film tools and accessories and have been leading the market for over 100 years. KB Packaging are a proud partner and premium repair centre for the UK market.

THE ULTIMATE PROTECTION FOR OVER 100 YEARS

WORLD LEADER IN SHRINK TOOLS

Cold Nozzle Technology

A patented solution for ultimate user safety.

Comfort & Ergonomics

Intelligently designed dual material handle

Safety

The safest shrink guns on the market with improved valves, connectors, and ignitors.

Ripack Gun Models

2100

The Entry-Level Choice
Intelligently designed dual material handle

Power Output:	40kW
Weight:	955g
Adjustable Nozzle:	No
Spare igniter:	No
Removable Nozzle:	No
Extension Compatible:	No
Warranty:	2 Years

2500

The Lightest In The Range
Intelligently designed dual material handle

Power Output:	34-60kW
Weight:	940g
Adjustable Nozzle:	No
Spare igniter:	No
Removable Nozzle:	No
Extension Compatible:	No
Warranty:	2 Years

3000

Unmatched Performance
Intelligently designed dual material handle

Power Output:	45-80kW
Weight:	1250g
Adjustable Nozzle:	Yes
Spare igniter:	Yes
Removable Nozzle:	Yes
Extension Compatible:	Yes
Warranty:	10 Years

3000+

Powerful & Ergonomic
Intelligently designed dual material handle

Power Output:	45-80kW
Weight:	1555g
Adjustable Nozzle:	Yes
Spare igniter:	Yes
Removable Nozzle:	Yes
Extension Compatible:	Yes
Warranty:	10 Years

Ripack Accessories

With the extension poles, you can work faster and more comfortably on large areas whilst not having to work in tiring positions.

It is quick and easy to attach, by means of a simple socket, one or more extension poles to the RIPACK® 3000 or 3000+.

- ✓ **Eliminate the need for steps or ladders**
- ✓ **Improved Ergonomics and reduced MSDs**
- ✓ **Improved safety and distance from flame**

Thanks to its positioning, the load of the Ripack 3000+ shrink gun is distributed over the entire arm and not just the wrist.

Although they are light, the extensions of the shrink gun add a little weight and alter the balance of the gun. The Ripack arm support makes shrink work more comfortable and controllable. It's rubber coating gives it a good grip and a great comfort to use.

Its ergonomics have been designed to reduce MSD (Musculoskeletal Disorders).

- ✓ **Improved Ergonomics and reduced MSDs**
- ✓ **Improved weight distribution and balance**
- ✓ **Reduced fatigue and physical stress**

Ripack Accessories

Like any workstation, a Ripack shrink-wrap station functions best when equipment can be properly stored. With its automatic, ratchet lock hose retraction system, you no longer have to drag your Ripack shrink gun around.

The reel is an alternative to the Ripack gas bottle trolley and also makes it easier to move around goods that need shrink-wrapping.

- ✓ **Eliminate trailing hoses**
- ✓ **Improved user safety and reduced trip hazards**
- ✓ **Improved work area tidiness and organisation**

The Pallet Raiser makes it possible to lift a pallet placed on a forklift or pallet truck by five centimetres. It helps shrink the film under the four corners of the pallet and optimises the stability of the load during transportation.

It's dimensions are calculated for 800 x 1200 mm pallets. It is supplied with wideners suitable for 1000 x 1200 mm, 40" x 40" or 40" x 48" pallets.

- ✓ **Dedicated shrink wrap location**
- ✓ **Eliminate the need for a pump truck or forklift**

Ripack Accessories - Bottle Trolleys

936

The Ripack bottle trolley is the essential accessory for moving your shrink station safely and ensuring the longevity of your equipment

Bottle:	Up to 19Kg
L/W/H	489x483x1889 mm
Weight:	11KG
Package Sizes	1100 x 370 x 110 mm
Package Weight	12KG
Warranty:	1 year

936+

The Ripack bottle trolley is the essential accessory for moving your shrink station safely and ensuring the longevity of your equipment. They are designed to be a real workstation, which is why they are equipped with a tool bag, allowing you to carry your tools easily.

Bottle:	Up to 19Kg
L/W/H	489x483x1889 mm
Weight:	11KG
Package Sizes	1100 x 370 x 110 mm
Package Weight	12KG
Warranty:	1 year

932

The 932 and 392+ trolleys have been developed to support cylinders weighing up to 47kg. Their design provides maximum ergonomics for the mobile workstation.

Bottle:	Up to 47Kg
L/W/H	1014x719x2099 mm
Weight:	23KG
Package Sizes	1100 x 370 x 110 mm
Package Weight	26.5KG
Warranty:	1 year

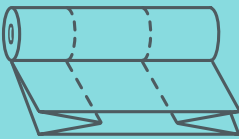

932+

The 932+ trolley is also equipped with a 15m hose reel, making it an optimal packing station. A magnetised workbench plate with adjustable hooks, a work shelf and a safety elastic band to prevent your sheets from flying away.

Bottle:	Up to 47Kg
L/W/H	1014x719x1600 mm
Weight:	41KG
Package Sizes	1100 x 370 x 110 mm
Package Weight	44.3KG
Warranty:	1 year

Multicover Technology

A superior method to dispense and produce shrink hoods on demand. Instantly eliminate the need to source multiple sizes of shrink hoods for different load sizes.

- ✓ Reduce plastic usage and waste
- ✓ Speed up shrink wrapping times
- ✓ Improve pallet presentation and appearance
- ✓ Reduce cost

Multicover Models

960

Unmatched efficiency and accuracy

Electronic sealing and measurement read-out for ultimate efficiency.

Dimensions mm (without reel):	1430 x 580 x 1970
Adjustable length mm:	1300 x 2000
Weight kg:	160
Max. reel width mm:	1440
Reel capacity mm:	3 of diameter 500, 4 of diameter 300
Reel bar adjustment mm:	1500 to 2200
Reel position:	Modular
Max. total load kg:	100
Max. pallet size mm:	1200x800x200

955

Seal and Cut with Ease

Manually seal and cut shrink hoods to the perfect size required.

Dimensions mm (without reel):	1000 x 1000 x 1700
Weight kg:	80
Max. reel width mm:	1400
Reel capacity mm:	3 of diameter 500, 3 of diameter 300
Reel bar adjustment mm:	1500 to 2200
Reel position:	Modular
Max. total load kg:	100
Max. pallet size mm:	1200x800x200

935

Simple & Easy Dispensing

Tidy up your work environment and dispense up to 2 film sizes.

Dimensions mm (without reel):	1000 x 1000
Adjustable length mm:	1300 x 2000
Weight kg:	33
Max. reel width mm:	1400
Reel capacity mm:	3 of diameter 500, 4 of diameter 300
Reel bar adjustment mm:	1500 to 2200
Reel position:	Modular
Max. total load kg:	100
Max. pallet size mm:	1200x800x200

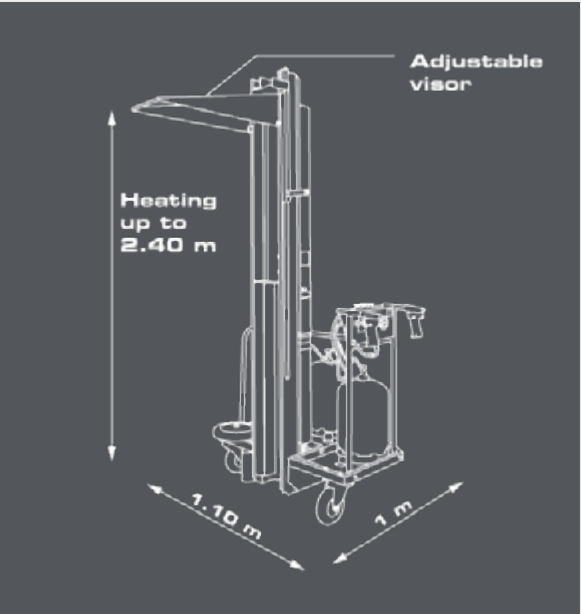

Turbopack Technology

For ultimate efficiency for high output environments. Using the Turbopack operators can speed up wrapping times by 60% *depending on application. The Turbopack is available in a range of sizes for different pallet heights.

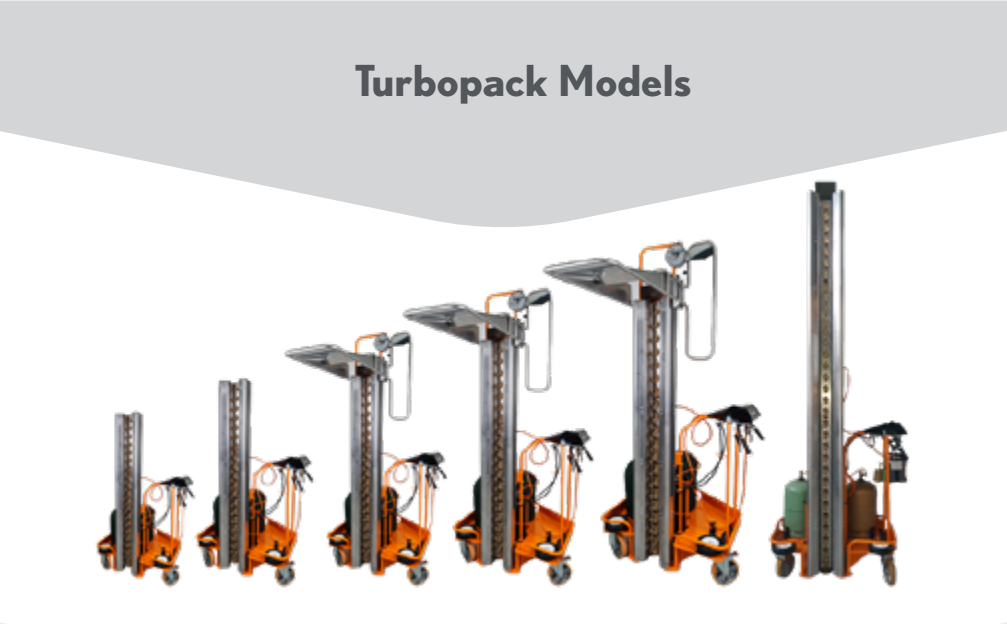

- ✓ Reduce plastic usage and waste
- ✓ Speed up shrink wrapping times
- ✓ Improve pallet presentation and appearance
- ✓ Reduce cost

Shrink Film

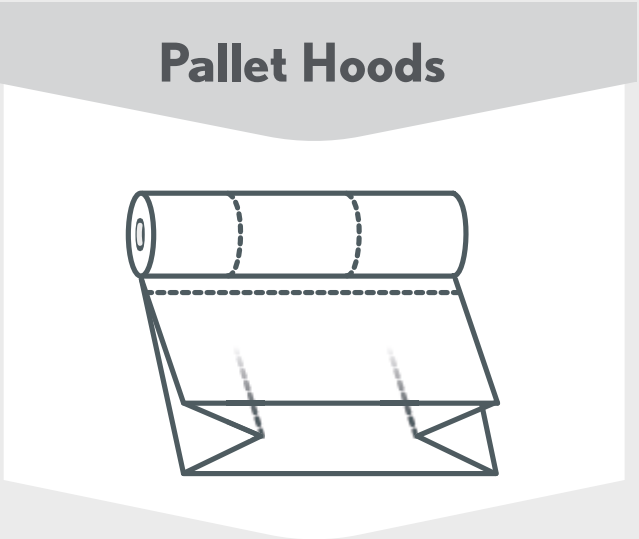

Folded shrink film is a versatile solution for shrink wrapping large format products such as oversized fabrications and export freight. Often centre folded (C folded) or tri-folded (M folded), sheeting vcan cover a wide surface area for irregular shaped goods.

Available in a number of specifications, we can supply specialist colutions such as coloured white opaque, UVI/VCI treated and bespoke meade-to-measure sizes.

Gusset tubing continuous tubing is a cost-effective way of dispensing cover hoods. Its continuous nature makes covering varying height pallets easy. Side gussets fold out to form a hood to the exact size of the pallet length & width.

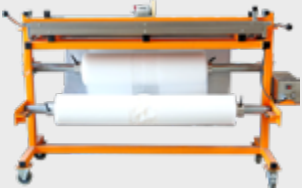

Often used in conjunction with the Ripack Multicover for easy sealing and dispensing.

For ultimate speeds and minimal wrapping times, made-to-measure pallet hoods are supplied on a roll and pre-perforated to the set size of your pallet application. Ideal for higher output scenarios where pallets are all of the same size (LxWxH).

Available in a number of specifications, we can supply specialist colutions such as coloured white opaque, UVI/VCI treated and bespoke meade-to-measure sizes.
