

DECLARATION OF CONFORMITY

to REACH and PPWR

Date: 29 July 2026

KB Packaging (UK) LLP supports the aims of **REACH** (Registration, Evaluation, Authorisation and Restriction of Chemicals — EC Regulation 1907/2006), which governs the registration, evaluation, authorisation and restriction of chemical substances placed on the EU market, and is consistent with our own approach to the responsible use and handling of materials in our supply chain.

We recognise the importance of our supply chain in meeting these obligations and work with our raw material suppliers to maintain continuity of compliant supply as chemical and packaging legislation evolves.

Having reviewed the relevant legislation, including the definition of an “article” under EC Regulation 1907/2006, it is our understanding that our packaging products do not contain Substances of Very High Concern (SVHC), as listed on the ECHA Candidate List, in concentrations above 0.1% (w/w) each.

The current ECHA Candidate List can be viewed at: echa.europa.eu/candidate-list-table

Our full range of packaging products — including corrugated cardboard boxes and cartons, protective and cushioning packaging (foam, bubble wrap, void-fill), pallet stability products (stretch wrap, strapping, pallet covers and sheeting), bags and film, postal packaging, and thermal/chilled packaging — is also compliant with the **Packaging and Packaging Waste Regulation (EU) 2025/40 (PPWR)**, which applies from 12 August 2026 and replaces the earlier Packaging and Packaging Waste Directive 94/62/EC.

This declaration is based on information provided by our raw material suppliers and is provided in good faith to the best of our current knowledge. It does not constitute laboratory-verified test data for any specific product; where analytical confirmation is required, this should be requested separately.

Signed on behalf of KB Packaging (UK) LLP

Signature

A handwritten signature in black ink, appearing to read 'D Hammond', written over a horizontal line.
