

Small Bubble Wrap

Description

Small bubble wrap is a lightweight protective packaging material for cushioning delicate and lightweight items during handling, storage and transit. Its compact air-filled bubbles give close-contact surface protection, making it well suited to cosmetics, electronics, ceramics, glassware and other fragile products where abrasion and impact damage must be minimised.

Manufactured from LDPE, this range carries 30% recycled content per the supplier's product data, across the standard grade and speciality variants (anti-static, oxo-degradable, double laminate, furniture wrap and PUKKA grade) — see the range table below.

Key Features

- Compact bubble profile conforms closely to product shapes
- Close-contact cushioning and surface protection
- Lightweight — minimises bulk and dimensional shipping weight
- Available in anti-static, oxo-degradable and furniture-grade variants
- Suitable for manual packing and high-volume automated lines

Specification

Type	Small Bubble Wrap
Material	Low Density Polyethylene (LDPE)
Bubble Size	6mm
Available Widths	300mm – 2000mm, depending on grade
Available Roll Lengths	100m as standard; 200m to order
Recycled Content	30%, per Abriso-Jiffy's Annex I product data for small bubble roll items
Recyclable	LDPE can be recycled; correct disposal is the responsibility of the end user

Available Range

Current SKUs and pack configurations as listed on [kbpackaging.com](https://www.kbpackaging.com):

KB SKU	Width	Pack	Grade	Recycled Content
SB300D	300mm	5 x 100m bundle	PUKKA grade	30%
SB500	500mm	3 x 100m bundle	Standard	30%
SB500AS	500mm	3 x 100m bundle	Anti-Static	30%
SB600	600mm	2 x 100m bundle	Standard	30%
SB750	750mm	2 x 100m bundle	Standard	30%
SB750AS	750mm	2 x 100m bundle	Anti-Static	30%
SB900	900mm	1 x 100m roll	Standard	30%
SB1000	1000mm	1 x 100m roll	Standard	30%
SB1200	1200mm	1 x 100m roll	Standard	30%
SB1200FSDH	1200mm	1 x 100m roll	Furniture Wrap HD	30%
SB1500	1500mm	1 x 100m roll	Standard	30%
SB1500AS	1500mm	1 x 100m roll	Anti-Static	30%
SB1500BD	1500mm	1 x 100m roll	Oxo-degradable	30%
SB1500DL	1500mm	1 x 100m roll	Double Laminate	30%
SB2000	2000mm	1 x 100m roll	Standard	30%

Regulatory & Environmental Compliance

Small bubble wrap is manufactured for KB Packaging by Jiffy Packaging Company Ltd, part of the Abriso-Jiffy Group (Compliance Declaration ref. AJ-K B Packaging Ilkeston-1, signed 05 August 2026 by Darren Harding, Operations Director, Winsford). The declaration's scope explicitly covers PE bubble products (rolls, sheets, bags and other conversion), and confirms the following current baseline, effective from 12 August 2026 under the EU Packaging and Packaging Waste Regulation (EU) 2025/40 (PPWR):

Heavy Metals (Article 5(4))	Combined concentration of lead, cadmium, mercury and hexavalent chromium introduced via raw materials, masterbatches or additives does not exceed 100 mg/kg (100 ppm).
PFAS (Article 5(5))	No per- and polyfluoroalkyl substances (PFAS) are intentionally added.
REACH (EC 1907/2006)	Materials do not contain Substances of Very High Concern (SVHC) from the current ECHA Candidate List above 0.1% w/w.

The supplier states that independent, third-party verified laboratory testing supporting these claims is held at its corporate headquarters in Belgium, and that equivalent material compliance is maintained across its manufacturing network via unified recipe controls and standardised resin procurement.
