STATEMENT ON EUDR

(EU Deforestation Regulation (EU) 2023/1115)

Intelligent Packaging Solutions

Date: 27 October 2026

KB Packaging (UK) LLP supports the aims of the **EU Deforestation Regulation (EU) 2023/1115 (EUDR)**, as amended by Regulation (EU) 2025/2650, which requires that relevant products made from cattle, cocoa, coffee, palm oil, rubber, soya and wood placed on the EU market are deforestation-free and legally produced. The Regulation applies from 30 December 2026 for medium and large operators and traders, and from 30 June 2027 for micro and small undertakings.

Polymer-based products. Our pallet stability products (stretch wrap, strapping, pallet covers and sheeting), bags and film, foam, bubble wrap, plastic void-fill and plastic tapes are manufactured from polymer-based materials (e.g. polyethylene, polypropylene and expanded polystyrene). They do not contain any of the relevant commodities and are outside the scope of the EUDR.

Paper and board products. Our corrugated cardboard boxes and cartons, paper bags, paper void-fill and other paper and board products are wood derivatives listed in Annex I of the EUDR. Products made entirely from recycled (recovered) fibre are excluded, although the virgin fibre content of mixed-fibre products is not; our cardboard and board-based packaging typically contains 70–100% recycled fibre. Packaging used to support, protect or carry another product is not a relevant product in its own right, but empty packaging placed on the EU market as a product remains within scope.

Wooden pallets. Wooden pallets fall under Annex I heading ex 4415. Under the Annex as amended by Delegated Regulation (EU) 2026/2102, used and second-hand pallets, single-use packing, and packing suitable for repeated use from its first use as packing are excluded, so pallets used to carry goods are outside scope. New pallets placed on the EU market empty, as products in their own right, are within scope. For wooden pallets the EUDR applies from 30 December 2026 regardless of company size.

KB Packaging (UK) LLP is based in Great Britain and supplies our products to customers in the UK. Where a customer imports our paper, board or wooden pallet products into the EU as products in their own right, that customer will normally be the operator under the EUDR. On request, we will work with our suppliers to provide the information available to us to support the customer's due diligence.

This statement is based on information provided by our raw material suppliers and on our current understanding of the EUDR and the European Commission's guidance, which remains subject to change. It is provided in good faith to the best of our current knowledge and does not constitute legal advice; customers remain responsible for confirming their own obligations under the Regulation.
